Per the new model that was introduced as summer school, I no longer have minimum petition requirements. Instead my job is to work on finding, creating and supporting long term holistic campaigns.

This month our primary focus was on the Asia Bibi campaign and hosting offline events such as vigils. In addition to the Asia campaign I authored a solidarity petition to victims of a horrific shooting in CA <https://citizengo.org/en-us/lf/166679-solitary-victims-thousand-oaks-shooting> and published a campaign about a student discriminated against for views of marriage. This petition has done extremely well and has been relaunched. <https://citizengo.org/en-us/ed/166767-berkeley-student-senator-under-fire-christian-faith>
My additional time was spent promoting supporting Greg and Caroline on other US based issues.
